Flower Care for Event Flower Buckets

Your flowers will have been picked approx 12 hours before collection and put straight into buckets of fresh water to condition. This gives you the best, freshest and long lasting flowers that are ready to arrange as soon as you are ready!

Keep your flower buckets in a dark, cool room until you are ready to arrange them.

- We recommend our flowers are arranged into clean vessels of fresh water.
- Snip stems at an angle with clean scissors and place straight in water.
- Where possible always keep your arrangements out of direct sunlight, in a cool, airy position.
- Refresh water at least every other day for longest lasting blooms.
- Keep hand held bouquets hydrated for as long as possible before they are needed.

Terms & Conditions

- We can always advise on what is due to be in flower at the time of your wedding or event. We can give you a really good idea of what we expect to be in bloom. However, we can never say 100% as the weather plays a huge factor in flowering times. We have plenty of experience, will always have something you'll love, and will work with the best of whatever is available. We are able to supply a huge variety of flowers that are not available for your average high street, event florist, or wholesale market, but only the import market can give 100% certainty of having specific flowers in specific colours at any time.
- We pick flowers to your colour specifications as closely as possible, however we cannot guarantee an exact match throughout.
- Where we need to supplement your order with flowers from elsewhere we will endeavour to support other local flowers growers, and will only supply you with British grown flowers.
- Once your flowers have been collected or delivered it is up to you to keep them in top condition. Keep them cool and out of direct sunlight. During your wedding day, bouquets will appreciate a drink of water in vase once the formalities are complete - use them as another arrangement in your venue. Please ask for advice if required.
- Full payment is required 2 weeks before your event date.
- Stem counts used in our arrangement proposals are our guide to you based on our experience of what works best and what was agreed during discussion. Where you have suggested a lower budget we have suggested the minimum number of stems recommended.
- A £100.00 deposit is required to secure the date for your wedding Flowers. The deposit is non refundable, and will be deducted from the final bill. Full payment, minus the deposit, is due no later than two weeks before the wedding date.

FULL TERMS AVAILABLE ON BOOKING.
