LITTLE PADDOCK FLOWERS

Flower Buckets - Doorstep Deliveries

In a Nutshell

Truly seasonal, locally grown flowers grown on the Wiltshire/ Oxfordshire border. Our flowers are a high quality, homegrown product, sown, grown and picked by us!

We specialise in wild and natural looking flowers and foliage that ooze that 'garden gathered' feel.

Where we need to supplement your order we will only ever supply you with British flowers, nearly always from our fellow flower growers in neighbouring towns and villages.

How it works

1. **Order online** or email **flowers@rovesfarm.co.uk** to check availability and place an order. Please check our website for delivery days and order deadlines. Please check you have given us the correct delivery address!
2. **Delivery** -Deliveries will be contactless for the foreseeable future. We will leave your flower bucket or bouquet on your doorstep, ring the doorbell and stand well back. Please notify us of a safe place where they can be left if you or the recipient are not in.

Thank you!

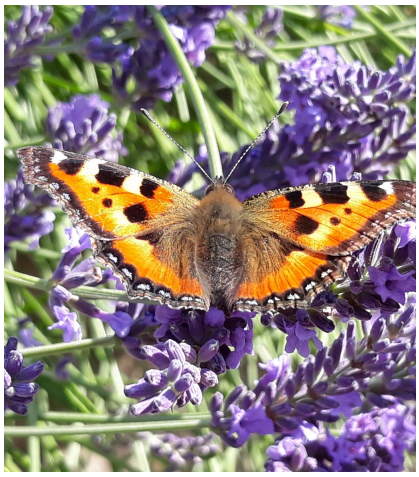
LITTLE PADDOCK FLOWERS



Cut Flower Care

Your flowers will have been picked approx 12 hours before delivery and put straight into buckets of fresh water to condition. This gives you the best, freshest and long lasting flowers that are ready to arrange as soon as you are ready!

Keep your flower buckets in a dark, cool room until you are ready to arrange them.

- We recommend our flowers are arranged into clean vessels of fresh water.
- Snip stems at an angle with clean scissors and place straight in water.
- Where possible always keep your arrangements out of direct sunlight, in a cool, airy position.
- Refresh water at least every other day for longest lasting blooms.
